

BluLink is an asset tracking infrastructure device that offers data gateway functionality. It links Bluetooth based devices (i.e. tags or sensors) with *AlpsAlpine Connect* platform. Even if external power supply is temporary cut off, the device will continue to send data, based on its build-in backup battery.

BLE

NB-IoT Interface (incl. cellular positioning)

Indoor Tracking (via BLE)

Backup Battery

Remote Configuration

Data recovery

FOTA upgrade

Industrial Strength

Externally Powered  
(10V-30V/DC)

IP 65

### Mechanical design

Size	130.4 x 72 x 35.5 mm (L W H)
Weight	219g
Color	Standard: Blue Optional: White
Housing Material	PBT/PC
Operating Temperature [°C]	-20 to +60

### Mounting

Holes (φ6.3 mm) for screws or rivets  
Cable ties

### Certifications

**Regulatory**  
CE / FCC

**Interfaces**  
NB-IoT / Bluetooth

### User interaction

**Device activation**  
Activation by Magnet Switch

**LED Feedback**  
Green and red LED feedback on the device
