

GERI R1 APS as periodic send and AST as standard version are asset tracking devices that enables the fleet management and fleet size optimization. Geri R1 AST can detect asset orientation, motion detection and surrounding temperature. Geri R1 APS will periodically send a keep alive and position information.

-  Sigfox U0 class
-  Network Triangulation
-  Remote Configuration
-  One Touch activation
-  Smart Motion Algorithm *
-  Temp *
-  Orientation detection *
-  Up to 7 years of battery lifetime (APS)
-  Low battery alarm
-  IP 64
-  Slim Form Factor

Mechanical design

Size	119,5 x 63 x 9,3 mm (L W H)
Antennas	Integrated antenna
Weight	~30 g
Color	translucent
Housing Material	PVC
Operating Temperature [°C]	-15°C till +60°C

Mounting

4x Holes (φ4.0 mm) for screws, rivets, double sided tape or cable ties.
The Geri housing material is PVC and it is made for intergrated mounting.

Certifications

Sigfox	Regulatory
Sigfox Ready Certified RC1	CE; IP64

User interaction

Device activation

One time activation before mounting due to tact switch and activation control LED.

*only AST version
