

Lykaner 5 is an asset tracking device that enables the user to track the different locations of a moving asset, such as containers, trolleys or pallets based on Wi-Fi localization.

Wi-Fi Localization

Sigfox

Remote Configuration

Data recovery

Smart Motion Algorithm

Easy Installation

Temperature alarm

Orientation Detection

Tamper detection

Industrial Strength

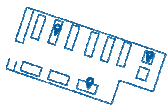

Up to 10 years of battery lifetime

IP 65 & IP 67

Low battery alarm

WiFi Indoor tracking

Mechanical design

Weight	94 grams
Color	Black
Housing Material	PBTGF30
Operating Temperature [°C]	-20 till +60

Mounting Methods

Industrial grade double sided tape
Cable ties
Screws or rivets

Certifications

CE, Giteki, KC, FCC, IC, NOM, RCM, NBTC

Sigfox Ready RC1/RC2/RC3/RC4/RC5

User Interactions

Activation via detector switch : push and hold permanently
Activation via tact switch : push for 3 sec and release
LED feedback : 10 sec blinking upon activation

Enclosure Options

<p>Tact switch variant, with bottom LED, and optional double sided tape.</p>	<p>Wingless option suitable for device integration into limited space areas, with bottom LED.</p>
<p>Side mounting with top LED, suitable for limited surface areas like thin bars or roller cages handles.</p>	<p>Detector switch variant</p>
